

# Classic Hearths

Classic Hearths is a new product designed and produced by Classic Stone, leaders in the stone veneer industry. These unique fire hearths are a large format single-slab design, and are custom-made with impressive natural textures and colour.

Strikingly authentic  
and distinctly  
unique

Talk to us today  
about your  
personalised  
'made-to-measure'  
hearth

Using the latest in concrete technology, we are able to manufacture hearths that are strong and durable. To ensure a simplified and cost-effective installation, our standard hearths are a depth of 20mm.

**NEW RANGES ARE:  
Rustic Oak and  
Silver Beech**

These have a unique look  
of sawn wood complete  
with timber grain, saw  
cuts, and nail holes.

Our Classic Hearth ranges - Gold Fields, Midnight Sky, Tussock Country and Gates of Haast, are inspired by our stunning New Zealand landscapes. They have been moulded directly from stone found in the Landsborough Valley on the West Coast, and these natural textures and features are then carefully transferred onto every Classic Hearth.
